Common Law: Who's Your Daddy?

Following his enlightening presentation last year, **Thomas brings more revelations to us**

A huge deception has been played on mankind through its own massively inflated ego. The gist of which is an illusion that goes unnoticed by the common people.

This deceit is in every civilized country and will soon be global.

It is time to learn about the deceit and pass on knowledge of this cruel hoax before mankind is totally destroyed.

The wicked ones have had the next few years in their plans for millennia.

We need to get wise, like the serpent before it takes its strike... it is already coiled and ready to sink its fangs into whomever is unaware.

We all need a higher source of protection.

This talk is about THE LAW and the rule of law, where both systems originate and how the rule of law has suborned us into slavery by consent and will show you the path to obtain the highest form of liberty and get what is proper to you back: your birthright back from the globalists who feed off egos, greed and power.

It is time for the worm to turn.
