Introduction To The Body's Defence And Repair Systems And How They Affect Development And Treatment Of Cancer

We are delighted to introduce Dr. Peter H. Kay with his deep insights into the reality of cancer treatment

Dr. Kay founded the first Molecular Pathology laboratory in Western Australia and has published over 80 research articles relating to molecular pathology, genetics, medical sciences and cancer biology.

He has established a clinic called, "A science-based information and support service for cancer patients." He specialises in providing cancer sufferers with current information about the pros and cons of various treatment options.

■ MONDAY 9th OCTOBER 2017

Is Humanity, as we know it, on the brink of Mass Extinction?

It's always a great pleasure to welcome back Ian R. Crane, one of the UK's top Alternative View researchers and speakers

Despite a reported global population of some 7 billion, the birth rate amongst the indigenous peoples of Europe is falling dramatically. Reduction in male sperm count and increasing gender fluidity amongst those under 40 are directly attributable to the volume of oestrogen in our water supply. Add this to the technocratic trans-humanist agenda being openly pursued by the ruling parasites and it becomes difficult to see how humanity (as we know it) can survive beyond the end of the century!

Guardians Of Blood And Fire: The Search For The Celtic Heart

Following up on her recent talk, Cara St. Louis gives more insights into the Fae

The Great Eclipse of last August wreaked much havoc. One of the benefits, though, is that it offered a clear line between AI/Tech and the Organic/Fae.

Now is a time to choose ground and defend it! We'll talk about that and we'll talk about who YOU really are, the Original Magician. And, of course we'll talk about our seed race... far more ancient than any other race.

■ MONDAY 23rd OCTOBER 2017

A World In Crisis: Global Terrorists and Their Allies in The Media

Janine Griffiths, senior journalist at Akashic Times, always has fascinating and revealing information about the role of the media in our society

The world is in crisis. Terrorist attacks are an almost daily occurrence and Trump, along with the other lunatic in North Korea, appear to be trying their hardest to ignite World War Three. But are they part of a sinister plan?

In this talk, Janine will outline why you can never believe what you hear in the mainstream media and she'll show you examples of how the media are at the forefront of manipulating the minds of the masses and the exact techniques they use. Quite simply, the media is the 'mind control' division of the government and they've got us where they wanted...

The Threefold Society – The Way Forward after the EU

Top academic and brilliant presenter, Terry Boardman, revisits us with more fascinating thoughts

What has got us into the mess we have been in over the past 100 years is the obsession with the unitary State in which the government is seen, in effect, as the CEO of an internationally competitive company called UK plc and is expected to manage and interfere in everything within British society.

Life on earth is seen in a Darwinian way as a struggle for survival between these unitary States. The EU has been trying to make Europe into such a unitary State (the United States of Europe), and the political parties in Britain have tried in vain to run Britain effectively as such a unitary State since the First World War. But a hundred years on, everyone senses that our elites are out of ideas and that nothing is really working anymore.

But, as Terry will demonstrate... there is another way.
