A Peak Into Where Your TV Licence Fee Goes

Ben Emlyn-Jones takes a close look at one of the world's biggest media platforms

The BBC claims to be a vehicle to entertain and educate the people, but in reality it is a mind control operation designed to demoralize, confuse and mislead us.

The signs are all there, with the recent sexual abuse scandal involving some of its biggest stars, the content of its broadcasts and even in the architecture of its headquarters.

Myths On The Path To Enlightenment.

or **AHA!! (Ancestral Health and Awakening)** led by **Zahir Khan & Phil Escott**

Zahir Khan and Phil Escott first met because they've both been interviewed for Buddha at the Gas Pump, and here they team up to provide their unique brand of observations on the many misconceptions and layers of dogma that people get bogged down with in the fields of physical health, lifestyle, emotional balance and spiritual awakening... and how all of these can actually be confused with each other, delaying progress by years, possibly decades.

This is an evening to have your beliefs challenged, so be prepared. There are many false beliefs on all levels that can come between us and awakening to our essential nature. If you are experiencing any frustrations on your healing or spiritual journey and have an open mind, this is the event for you.

Zahir and Phil, ex-long-term practitioners of, among other disciplines, yoga, meditation and Sufism, and, as successful authors and life coaches working with clients worldwide, have been through their own unique trials, "incurable" illnesses and dark nights of the soul to lose their deep conditionings and come to many awakenings on all levels... some of which might well surprise you.

"Bring me your dearest held beliefs, and with any luck you will leave without them." – Ram Tzu.

For more info, check out their many online talks and interviews on the websites below.

God's 7000-Year Calendar Of Creation, Part 1:

God created the universe 7000 years ago... Thomas asks some searching questions

... and God saw everything that he had made and, behold, it was very good and the evening and the morning was the 6th day.

Thomas takes a closer look at God's 7 Days of Creation and how his Creation relates to our life today.

The question to ask each other is this: do we think our creator would be happy with the pain, enslavement and anguish that man lives under or could it be that there is more to be done?

God's 7000-Year Calendar Of Creation, Part 2:

God created the universe 7000 years ago... Thomas asks more searching questions

Are we living in one of the Days of Creation and, if so, which day? and what does God's Book of The Law reveal to us in the day we may be living in?

What can we do to restore our rightful place as sons of God, instead of being gods.

Priests, lawyers and publicans do not want you to hear this, or those wicked ones hiding like cockroaches in the dark absence of light. They are under the illusion they are in control. They are about to have a rude awakening.
