■ 9th APRIL 2018

The REAL da Vinci Code

After his most successful and fascinating presentation last year, Mark Olly returns to expose the true facts of the da Vinci Code

Mark Olly investigates the Dead Sea Scrolls, Nag Hammadi Library, Creation & Evolution, Genesis, Fossil Discoveries, Giants, Noa's Ark, Human Species & DNA, Exodus, Moses, Bible Codes, Jerusalem, Jesus, The Real Crucifixion, Burial, Tomb, Mary Magdalene, etc.

Far better and far more revealing than Dan Brown's book.

Refusing to take part in the Birth Certificate Fraud and the making of the Great British Mortgage Swindle.

From the cradle to the grave, Michael O'Deira shows the whys and wherefores of refusing to take part in the tyranny of the state's registration system(s).

Part 1: using an actual example, part one will lay out the deception behind registration - from the birth certificate to the driving licence and beyond.

Part 2: the making of the Great British Mortgage Swindle and how it affects everyone. An update and an actual example of the fraud using the case of Halifax CEO, Antonio Horta-Hosorio.

Michael O'Deira is Founding Trustee of Universal Community Trust and the independent anarcho-nation of Bernicia & Deira; the editor, administrator, author and content creator for www.roguemale.org, a public and private speaker on the trivium, sovereignty and banking crimes; and the host of the RogueCast, a podcast, available at his site.

With some 20 years of teaching English, Media studies and drama mercifully behind him, Michael remains, in spite of all that, dedicated to individual freedom through education and self-realisation. He is also the founder of the forum www.thinkfree.org.uk a troll- and toll-free educational resource which began in 2009.

He is also co-producer and director of the soon-to-be-released 'shockumentary' film, "The Great British Mortgage Swindle", his first film, a powerful expose of the genocide of banking fraud.

The "Musical Truth 2 Book" Tour: Music as Mind Control

Following on from his previous, exceptional presentations, DJ and author/ researcher Mark Devlin continues his disclosures about the music industry

In his groundbreaking book 'Musical Truth,' Mark showed how the true nature of the corporate music industry tells a very different story to what's conveyed on its glossy, glamorous surface.

Mark's new talk contains content from the newly-released follow-up, Volume 2, where he continues to guide readers through the dark labyrinth of musical machinations.

Discover the world of Lifetime Actors and the crucial part they play in social engineering; reflect on the nature of sound itself and the ways it can be used to affect human behaviour; and study the striking parallels between the 1960s counter-culture and the UK's Acid House scene that kicked off 21 years later, all bearing the hallmarks of Establishment manipulation.

Crucially, Volume 2 reminds readers of how the music industry's activities form only one small part of what's really going on in this reality, and how the power to bring it all to an end lies with us and us alone. It always has. We've just been programmed to forget.
