JULY 2018 PROGRAMME

■ 2nd JULY 2018

Open Mic Night

Come along...

Air your views...

Listen to others'...

And lots of debate and discussion (plus chocolate biscuits!).

■ 9th JULY 2018

We warmly welcome back Lawrence Wright who always – without exception – gives amazing presentations

PART 1: Free Energy In Use Today

Many think that technology for free energy is being covered up but not in use. They are half right, free energy has been used worldwide for decades, centuries in some cases, all hidden in plain sight.

PART 2: The 4 Billion Ton Men

The first humans that roamed the Earth were bigger than mountains and the biggest weighed over 4 billion tons and were 4 miles high.

After many 'Honey I shrunk the kids' resets later, Mankind has progressively been made smaller to around 6 feet for the current model. How recent was the last reset? And how tall will Mankind be at the next reset?

This is not just speculation, evidence will be presented for both parts.

■ 16th JULY 2018

Media and The Mind: Mass Hypnosis and Conditioning through Words of Mass Deception.

Janine Griffiths is a recognised expert in media matters, particularly its use of psychology to achieve hidden agendas

Janine's latest presentation will be about the subtle non-verbal cues, voice modification and carefully chosen wording in the mass media which is designed to brainwash people into compliance.

She will also talk about the role that mass spying and digital platforms like Facebook, etc., play in the brainwashing and deception, and how China is leading the way in the technological dictatorships that are slowly being built around us.

■ 23rd JULY 2018

Social Evening

Come and join us at the Trawl Boat Inn (Wetherspoons) on Wood Street, St. Annes, for a Jolly!

Always a favourite evening... just relaxing, chatting, 'aving a laff!
