OCTOBER 2018 PROGRAMME

■ 1st OCTOBER 2018

The "Red, White & Blue" – What Does It Mean To You?

Come along and join Ian Stewart in his investigation of the true meanings behind colours

What is a colour? What do colours mean? What or who do they represent? Where do they come from? Are they powerful? Do they rule over/under us?

From a Nation's Flag to Big Business, from Sports to the Banks, from the Armed Forces to Unseen Forces... and more.

Come along to New Horizons to find out what they do not teach you at school. Find out what it all means and how it affects you, me, all of us.

Time for all to know and understand the truth of our Union Jack of the "Red, White and Blue".

■ 8th OCTOBER 2018

Living From The Heart

Harun Rabbani's first presentation was universally acclaimed as fascinating and informative... we're so pleased he could return and continue his revelations

From conception until the age of 7 or 8 years, the energy field of a child is bombarded with information that becomes his or her destiny's blueprint. This information will include blissful moments and, shockingly, the deep emotional traumas. This blueprint or "Life Map" helps individuals create their reality and navigate their intentions, decisions, words and actions.

The unresolved emotional baggage is the cause of most suffering.

During this talk, Harun Rabbani reveals how you can redraw your life map so that it no longer sabotages you, but serves your greatest health, happiness and fulfilment. You will also experience deep emotional healing that will help you to open up and reactivate your spiritual heart.

The Ancient Code

We are so pleased that Michael Feeley could visit and show how his 17 years of evidence-gathering, knowledge and investigative training have led him to break many ancient codes that have previously remained a mystery throughout the world

Just what are the ancient monuments of the world (and beyond) and biblical scriptures of the past really telling us?

Why is sacred information and sacred knowledge being kept away from the public?

What you have previously been told can now be re-written... Prepare to have your personal

boat rocked as many thousands of years of secrecy and mistruths are now exposed and revealed to you during this talk.

Michael Feeley is a multiple paranormal experimenter and has personally witnessed dimensional portals; UFO sightings, day and night; received telepathic invites to attend certain locations; has seen the spirits of British Royalty (King Charles I) and has seen an ET being face-to-face amongst many 'other world' encounters!

Stick Your New World Order Up Your A***!

Darren Nesbit, always a great favourite at New Horizons, takes some time off his TV and newspaper appearances about Flat Earth, and encourages us to have fun

An evening with musician Darren Nesbit, aka daznez, performing many songs of truth and hope, including from his latest album 'Last Days Of Babylon', and talking about the inspiration behind some of them.

Those attending are invited and, indeed, encouraged to bring wine, drums, instruments, voice, and anything else they feel will make this more of a campfire get-together sing-along than a 'regular' New Horizons presentation.
