NOVEMBER 2018 PROGRAMME

■ 5th NOVEMBER 2018

Neolithic Observatories

Kevin Rowan-Drewitt has been visiting New Horizons for twenty years and is always a fascinating speaker

Kevin has studied stone circles and other ancient sites from the New Stone Age for nearly 3 decades and has written 3 books on the subject. Tonight, he will demonstrate how these ancient sites of Britain and Ireland were built and aligned with the 18.61 cycle of the Moon, the 33 year cycle of the Sun and the rising of certain stars such as the ones in Orion's Belt.

Kevin will explain about the measurement, the Megalithic Yard, and how it was used as the basic building measure for all the ancient sites and how it was devised using the stars and the Earth. Kevin has personally visited every single site in his talk and invites you to come and take a walk in the footsteps of your amazing Neolithic heavens-gazing ancestors.

UFOs & The Music Industry

A big welcome to Dave Hodrien from the prestigious Birmingham UFO Group

A fun and lively talk on how UFOs and aliens have been represented in the world of music from the 1940s to the present day!

This will include UFO-themed bands and songs, and actual UFO/ET encounters that musicians have had.

Lots of music and music videos!

Birmingham UFO Group is one of the more active UFO research groups within the UK. They investigate both UFO sightings and contact cases from around the UK and further afield, and release detailed reports on these investigations. They hold monthly meetings in Birmingham, and regular online contactee / abductee support meetings.

Come along for a fun and interesting evening!

■ 19th NOVEMBER 2018

The Bigger Picture

Mark Windows is a recognised expert in local, national and international government "policies" and their true purpose

The recent Poll, The Democracy Perception Index found that "64 percent of populations in 'Democracies' stated that their governments 'rarely or never act in the public interest'. Mark's talk will reveal how public opinion is controlled at every level with no recourse. The solutions are also presented in this information-packed presentation.

Have you ever wondered why local and national government seem to have a different agenda than the one presented to the public? Mark will reveal the facts behind "Regeneration", "Vibrant Communities", "Walkable Cities", "Smart Cities", and why there is no real consultation. The Bigger Picture gives the facts about everything being implemented and how this affects us and presents information to safeguard our rights.

From Pills To Peace - My Journey Into Meditation

A warm welcome to Patrick (Midnight) McBride and to his insights into a peaceful life

Are you living in bliss? Most of us are not. We are suffering because of the way we think. Stress is our thoughts, born of the mind and therefore under our control. Through meditation, we can learn to reduce stress and develop inner peace.

This talk is about my Journey: how I arrived in this present moment. I had to take a very honest look at my life and also the world we live in. The answers we are looking for were here all along, inside our hearts in the form of a song. Have you got the courage to sing it? It's time to wake up! The other option is to stay asleep, eat fast food, watch TV and take chemicals to numb the pain. I invite you to join me on my journey into the light. Come up and see the view.
