DECEMBER 2018 PROGRAMME

THE BIG XMAS EVENT!

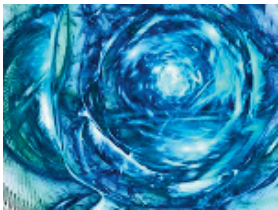

3rd DECEMBER 2018

Brilliant speaker!

Delicious buffet!

... just for the normal, £3 entrance.

We are delighted that **Steve Mera** – one of our most popular and respected speakers – has chosen New Horizons to host the Premier of his latest presentation...

Project Doorway – Magnetic Anomalies and Phenomenology

In more modern times, we have come to realise that the UFO phenomenon is one that has been with us for thousands of years; perhaps even longer, prior to documented history... but is there a ruse? Are we being duped?

It would seem that casting our eyes to the heavens and pondering the amount of time it would take to travel the vast distances of space may be a diversion.

New evidence would suggest that areas of magnetic anomalies are somehow being utilized by this phenomenon.

Steve Mera reveals some of the results from a new study into 'portals'. Can they really exist?... and what hard evidence is there to support this theory?

The conclusion seems quite alarming as we stumble into the world of science and phenomenology...

Do come along for a fascinating, fun and foodie event!

Have a wonderful festive holiday!

See you back at New Horizons on the **21st January, 2019**.

Please keep an eye on our website for 2019's programme.
