## APRIL 2019 PROGRAMME

### ■ MONDAY 1st APRIL 2019

#### A Game of Frequency

**Janet G brings enlightenment about the true nature of reality and the message that God brings us**

Fresh from finishing a popular four-part video series entitled 'A Game of Frequency' – which is now available on YouTube – Janet G brings aspects of that series, plus new perspectives to her latest presentation for New Horizons.

This 3D reality is made of dimensions, waves, vibrations and frequencies... it is a Satanic Matrix... an illusionary Dream-state, Soul-entrapment world that is harnessing the negative, base-energy from Living Souls to Power itself and to keep Living Souls from ever finding their true purpose and divinity.

The name of the game is to EXIT this Matrix, but to do this we have to start to open our eyes, ears and other senses.

God is telling you how to get out of here, but will you take heed?

#### What Questions Your Doctor Never Asked You

**Magnus Mulliner, a highly respected health consultant, looks deeply at the need for change**

In this presentation, you'll be reminded about powerful questions, which will instantly assist you on your new path to self-discovery on your ultimate Optimal Healthy Path.

We only have one prized precious possession and that's our physical health. It is our true wealth which may be affected by our mental, emotional, intuitive, spiritual and social levels of being.

How amazing would it be for you to become clear as to what the aetiology (root cause) is of any health challenge presented, especially in the knowing you are NOT your dis-ease!

It's not how long you live. It's the quality of your long life.

#### How A Horse Riding Accident Improved My Life – Finding A Deeper Connection With Animals

**Join us in welcoming Katherine Beaumont in her first – and fascinating – presentation at New Horizons**

I first started meditating with horses four years ago, after a riding accident, which left me unable to walk or ride for months. My horsemanship was traditional as it was culturally ingrained in me from being a child. I was also very stressed and depleted and really needed to stop. One day, my horse flipped over and sat on me, so stop I did.

Through meditating, I noticed a significant change in the horses' behaviour around me, such as lying down which I had never seen them do before, and it made me stop in my tracks.

How I treat them just wasn't beneficial to either of us.

I now listen to my horses and, in turn, they show me what is holding me back and where I need to grow.

I invite people to come and connect with them as a form of therapy and I also teach equestrians how to train their horses and dog owners how to support and train their dogs using the powers of compassion and meditation.
